

AFGHANISTAN

Aid projects for the needy and persecuted

Our **office in Kabul** serves to prepare the family reunion of recognized refugees from Afghanistan. The EMG carries the office costs and supports the international networking of our co-worker. **For this we need donations.**

PJ2015-037

Furthermore, EMG is involved in the **documentation of the enocide of HAZARA** and helps this particularly oppressed people.

Social project in the Bamiyan province in the Yakawlang area:

The German nurse Edda Dohm has been working for many years in the **house „Refuge“**, which she founded in 1990 in one of the poorest regions of Afghanistan. She has already taken Afghan citizenship. Under her direction, outcast, homeless, disabled and leprosy-sufferers, mainly women, are taken in.

The EMG supported this project financially in 2015.

Edda Dohm during her visit in Glasow and the house „Refuge“

The **„emergency aid project“ Afghanistan** has been a particular focus of our aid services in Afghanistan since 2019. Through the support of various partners, such as the **C.U.B.A. gGmbH** and **OpenDoors International**, the EMG is able to provide emergency help to both, sick people, single parents, who are extremely vulnerable in the local

society, and fled women. In addition, we try to help Christians deported to Afghanistan from all over Europe to survive.

Please pray for this ministry outreach SPECIALLY and REGULARLY!

We thank you from the bottom of our hearts, also on behalf of all those in need, for every support of this project.
